Environ Treatments

Dr Des Fernades, renowned South African Plastic Surgeon has developed ENVIRON, a range of treatments and homecare products. Through his years of working treating acne, scarring, pigmentation and photo ageing he has discovered the key to solving skin problems by topically delivering high concentrations of active vitamins A and anti-oxidants C, E & Beta Carotene.

The 20th Century environment constantly diminishes our skin's Vitamin A resources; which, says Dr Fernandes, is the root cause of many skin problems. Vitamin A is destroyed by any form of light and exposure, and in order to treat, restore and maintain a healthy skin, we need to replace these vitamins daily. With salon treatments, more intense results are achieved. Courses of treatments are recommended.

Active Vitamin Treatment £69

Packed with nourishing, anti-ageing ingredients, the Active Vitamin Treatment will leave your skin looking radiant and dewy. The freshest, most active forms of Vitamin A, C and Anti-Oxidants are driven deep into the lower layers of the skin using soundwaves and small electrical pulses. This scientific approach stimulates Collagen to soften lines and improve elasticity, increase hydration and boost radiance. The Active Vitamin Treatment is suitable for all skin types and is particularly effective at addressing sun-damage, pigmentation, premature ageing, dryness, uneven skin tone and scarring with measurable differences after just one session.

The Frown Treatment £60

This highly effective treatment uses a special penta-peptide serum to target frown lines and achieve dramatic results. The unique combination of active ingredients is driven deep into the skin to soften lines and reduce muscle tension in the forehead helping to prevent new lines forming. The treatment targets the same chemical complexes as injectables without the associated risks.

Hydra Boost Treatment £65

The perfect antidote to dry, lacklustre skin, this intensive treatment deeply hydrates while plumping and firming the skin. Based on Hyaluronic Acid, which holds 1000 times its own weight in water, it helps to reduce fine lines caused by dehydration and increase the plumpness of the dermis, resulting in moisturised, glowing skin.
